4. Planning application	<p>a)DC/15/24707/FUL. The application was approved with the following observations:</p> <ol style="list-style-type: none"> 1) The goal post selected should just meet the requirements of young people who live in the village if it is the maximum setting (10ft). 2) The application should have been in the name of Boyton Parochial Church Council as it is to come under their jurisdiction and not that of Dr Fred Stentiford. 3) The application incorrectly states that the installation is taking place on the village hall grounds. They are in fact, grounds owned by the church and not the village. 4) The application in catering for basketball does not include a concreted area suitable for bouncing the ball underneath the hoop.
